

Table 1: Priority exercise for new first aid-related Cochrane systematic reviews

First aid topic	Priority ranking	LMICs priority ranking
What is the effectiveness of first aid education?	1	2
Which warming techniques are effective for hypothermia?	2	5
What is the optimal body position for a person suffering from myocardial infarction?	3	3
What is the optimal body position for a person suffering from a stroke?	4	4
Which triage system is most effective for multiple casualty incidents?	5	1
Which interventions are effective to prevent tick bites?	6	
Are cooling gels effective as first aid for muscle injuries?	7	
What are the effects of early breastfeeding on the baby's health?	8	
Is breathing into a paper bag effective against hyperventilation?	9	
Is rinsing an injured eye with warm water effective?	10	
Are topical antibiotics effective to treat wound infections?	11	
What are the effects of early breastfeeding on postnatal bleeding?	12	
Is drinking alcohol effective to prevent hypothermia?	13	
Is drinking before diving effective to prevent decompression illness?	14
